OPEN CALL: PHYSICS WITHOUT FRONTIERS PROJECTS

Inspire and educate students in developing countries

ICTP’s Physics Without Frontiers programme works to inspire, train and motivate physics and mathematics university students worldwide, particularly those in countries lagging in science and technology. Projects are organised by lecturers, postdoctoral researchers and PhD students, aiming to train the next generation of scientists. Each project is unique, developed with the country’s specific needs in mind.

Submit an application today to host a PWF project. More information is available on our website.

Deadline: 30 May 2019
