

ICTP's 60th Anniversary

Calendar of Events

The Abdus Salam
International Centre
for Theoretical Physics

ICTP is a science institute with a unique history and mission. The Centre was founded in 1964 by Pakistani Nobel Laureate Abdus Salam, who was inspired by his conviction that science is the common heritage of humankind and should be open to everyone regardless of geographic or economic circumstances.

In the years since its creation, ICTP has grown to be the pre-eminent theoretical physics hub for scientists from around the world -- especially those from disadvantaged countries -- to recharge their knowledge, to make new research connections and to access valuable resources not available in their home countries. This international, multidisciplinary environment has been conducive to insights and advances in numerous areas of physics, from string theory to quantum physics to earth system science.

During 2024, ICTP will celebrate its 60th anniversary by highlighting its chief scientific achievements as well as its profound impact on science development in disadvantaged countries. ICTP will host celebration activities throughout the year related to its main fields of research and its mission, culminating in a one-day celebration in November 2024 of ICTP's key achievements.

Check ICTP's website regularly for news and updates about this exciting year of anniversary events: ictp.it

22 JANUARY

Un Veliero della Conoscenza in Difesa del Pianeta (organised jointly with the Museo Storico e il Parco Castello di Miramare)

Featuring a talk by ICTP climate scientist Filippo Giorgi.

TRIESTE

1 - 2 FEBRUARY

Salam Distinguished Lectures 2024: Learning Multiscale Energies from Data by Inverse Renormalisation

Featuring theoretical physicist Stéphane Mallat, Collège de France and Ecole Normale Supérieure.

TRIESTE

indico.ictp.it/event/10561

18 - 20 FEBRUARY

ICTP-SAIFR 12th Anniversary Symposium: Physics for South America

SÃO PAULO, BRAZIL

ictp-saifr.org/symposium12/

22 APRIL - 3 MAY

School on Parallel Programming
and Parallel Architecture for
High Performance Computing

**KATHMANDU,
NEPAL**

[indico.ictp.it/
event/10473](https://indico.ictp.it/event/10473)

4 - 5 JULY

International Symposium on
Energy and Climate
(date to be confirmed)

TRIESTE

26 - 30 APRIL

ICTP-UNU Workshop on TinyML
for Sustainable Development

**MACAO,
CHINA**

[indico.ictp.it/
event/10463](https://indico.ictp.it/event/10463)

7 - 21 JULY

8th Biennial African School
of Fundamental Physics and
Applications (ASP 2024)

**MARRAKESH,
MOROCCO**

[indico.ictp.it/
event/10493](https://indico.ictp.it/event/10493)

1 - 3 JULY

Celebrating 60 Years of the ICTP
Associates Programme

TRIESTE

[indico.ictp.it/
event/10491](https://indico.ictp.it/event/10491)

OCTOBER

International Symposium
on Computing
(date to be confirmed)

TRIESTE

7 - 18 OCTOBER

African Biophysics School
on Experimental
and Computational Sciences
(BISECS)

**ADDIS ABABA,
ETHIOPIA**

[indico.ictp.it/
event/10511](https://indico.ictp.it/event/10511)

6 - 17 NOVEMBER

Hands-On Quantitative
Biology School

**HAVANA,
CUBA**

[indico.ictp.it/
event/10517](https://indico.ictp.it/event/10517)

21 - 25 OCTOBER

2nd Workshop on the
American Monsoons

**MERIDA,
MEXICO**

[indico.ictp.it/
event/10514](https://indico.ictp.it/event/10514)

8 NOVEMBER

ICTP 60th Anniversary
Main Celebration

TRIESTE

Web page details
will be available
soon at
[ictp.it/home/
scientific-calendar](https://ictp.it/home/scientific-calendar)

28 - 30 OCTOBER

International Symposium –
XXIII Edoardo Amaldi Conference

TRIESTE

DECEMBER

ICTP and Vietnamese Science:
Celebrating 60 Years
of Collaborations

**HANOI,
VIETNAM**

Event date and web
page details will be
available soon at
